Swift Users Group

Host: Jarrod Parkes, parkesfjarrod@gmail.com

Date: February 22, 2017

What is the Swift Users Group?

- A place to learn about Swift and software development for Apple's platforms: iOS, macOS, tvOS, watchOS, ... carOS?
- A place to share ideas

What is Swift?

- A programming language annouced by Apple in Sept 2014

- It became an open-source project in Dec 2015

- It is the future of native Apple development

- It runs on all Apple devices and also Linux (Ubuntu)

```
print("Hello, world from Swift!")
```

Why Learn Swift?

- Swift is currently one of the fastest growing programming languages
- Swift is the 2nd most-loved language according to 2016 Stack Overflow survey
- Swift is backed by Apple... so it's here to stay... for now :)

What is required?

- A computer running macOS; preferrably a Macbook, but there are cloud-based options

ALL I NEED ARE MINDS FOR MOLDING

What do you want to learn?

```swift
var suggestions = [String]()

while true {
  if let suggestion = readLine() {
    suggestions.append(suggestion)
  }
}
```

Next meeting?

Date: TBD, March
